

UK insurance cloud based video

CHALLENGES

- The UK insurance company relies on CCTV recordings which requires on high quality recordings as legislation mandate voice/video recording for banks, insurance companies, trading houses and other financial institutions. In addition, the lack of central library make it hard to maintain the archives.

SOLUTIONS

- Cloud base video Surveillance, on-site local storage and remote cloud storage

BENEFITS

- D1 resolution of cameras are provided to fulfill high quality requirement of recordings
- 80G of cloud storage can record 160 hours per camera
- Central archive library to retain archives
- Central offline backup storage and restore on-demand
- Restore on-request for legacy HDD storage recorded

CCTV recordings are important to the insurance industry as they rely heavily on the recordings to resolve customer complaints or to support arbitration when matter arises. As a new trend in the legal system of many countries, legal witnessing can provide tremendous cost savings for both the legal system and citizens. Remote witnessing video-based require secure systems that allow well-regulated access to recorded testimony. A leading UK insurance company was searching for a service provider that can provide reliable and cost effective cloud based video surveillance solution. They require high quality video recordings and a central archive library on cloud storage as well as archives retrieval.

OneAsia's cloud based video surveillance solution provides reliability and flexible on-demand charge to the insurance company. Adopting OneAsia's services allow the insurance company to enjoy a much more stable viewing of high quality video recordings and automatic backup of archives to world class cloud centre. The insurance company does not have to spend time on the labor intensive backup process and can free up resources to focus on their core business.
